

## Competition Schedule

Registration: January 18th to March 5th

Preliminary Rounds: March 8th to 10th

Gallery Exhibition and Final rounds:  
March 22nd to 27th

Winner's announced: March 30th

Exhibition closes: April 1st

## What should the image be?

"Research" is defined broadly to include creative and scholarly work in all fields. The image submitted can represent your work either concretely or abstractly.

The submission will be judged on three criteria:

- Connection between image, text, and research
- Originality
- Visual Impact

# Mississippi State University Graduate School Image of Research Competition

A picture can say more than a  
thousand words ...  
and sometimes more than an  
entire dissertation

The Image of Research competition gives graduate students the opportunity to engage creatively with their research, share behind-the-scenes views of their research processes, or portray their academic study in visual form.
