

Graduate Student Registration Instructions

Only students admitted into the university are eligible to register for classes. Students unsure of their admission status should contact [Graduate Admissions](#).

All admitted students should consult with their graduate advisor prior to registering for classes to ensure courses they wish to take will help fulfill degree requirements.

If your major is Graduate Unclassified, you will need to contact each department in which you are taking classes for approval and major overrides before being released.

For departmental contact information regarding releases select the appropriate link below.
